Six deer have been killed in Como district.
Como wants a preacher and a school teacher.
The main north sewer has reached West street.

It is said that a few ducks are gathering in at Washoe lake.

Business is better in Battle Mountain than it has been for years.

The receipts at the Sacramento Fair Thursday, amounted to \$2,273 50.

Carpenters and builders are now finding plenty of work on the Comstock.

Ed. Harris the other day had a clean-up of \$4,000 from his Washoe lake mine.

The attendance at the Sacramento State Fair this year is the largest ever known.

Nevada wool sells at from fifteen to twenty-one cents a pound in the Boston market.

C. F. Mahoney, of Reno, is loading 50 tons of Nevada coal at Elko for shipment here.

Mahoney is scarce in Reno all of them having gone to the hop fields or the pine nut groves.

The trial of two men accused of murder will commence before Judge Bigelow at Elko, September 26.

Mrs. Prescott, the well known milliner who recently arrived from San Francisco, occupies room over the First National Bank.

Governor Davis has received a consignment of Pleasant Valley coal. Now is the time to lay in your winter supply at low figures.

It is reported that Miss Ollie Bray, of Carson, will have charge of the art exhibition, of Ormsby county at the State and District Fair.

The B. & H. mine, in Richmond District, Eureka county, owned by Bernard & Hill, of Carlin, is attracting attention, and promises to be a valuable property, as the more it is developed the better it appears.

All reports from the Carson river are to the effect that the water is slowly and steadily increasing. All old-timers say that the mills will all be in full blast in October, at farthest. They say that this has not failed to be the case in 20 years.

Special services at the Congregational Church to-day; Rev. W. S. Hamlin, of Oakland, Cal. At night there will be a free lecture, subject "America the light of the world." This will be the last opportunity of hearing this gentleman and all are invited to attend.

The Veteran Firemen of New York have brought with them to the Pacific Coast a hand engine which was built fifty-two years ago, and of which they are exceedingly proud. It is beautifully painted, richly ornamented, and profusely decorated with ribbons and flowers.

THE HAWTHORNE MINING DISTRICT.—Mr. E. H. Langley, of Hawthorne, has been in Reno for a couple of days, and is looking around for an opportunity to start in business here. In conversation with a JOURNAL reporter yesterday he said that the Mt. Cory mine has a very bright future. They are now opening up the 300-foot level and have taken out some very rich ore. They have fine hoisting works and all the machinery necessary to operate the mine. The Pamblico and other mines in LaPanta District are looking well. Mr. Langley, although he may go into business in Reno, will not by any means relinquish his confidence in these properties, but on the contrary combine business here with the interests he enjoys in Hawthorne and the Aurora District.

EVERYBODY GLAD.—The San Francisco Daily Report, speaking of the recent changes below, says: The return of ex-Senator James G. Fair to the banking and naturally to the mining field, for he has again become a partner with James C. Flood and John W. Mackay, whose chief business is mining, is hailed with general satisfaction among mining and stock people. As a miner James G. Fair stands at the head of the class. The interests of the Comstock lode will now probably receive much attention from him. Mr. Fair has returned to the field at a time when several of the mines are looking particularly well, and when there is talk of big developments of ore and a lively market ahead among people who are well informed on such matters. The effect of this important change cannot be otherwise than favorable to the stock, mining and financial interests, though it may take a little time before it will be fully seen.

AURORA MINES.—The Tribune says: The Consolidated Esmeralda Company is preparing for more extensive work on the Dorand. Workmen are now erecting hoisting apparatus for the extraction of a large quantity of good ore which is now in sight. About fifty tons of \$40 ore is now on the dump and a lot of very rich ore which assays from \$1,000 to \$2,000 will soon be shipped. A drift which has been begun 110 feet from the tunnel level shows this rich ore in fair sized bunches and the general appearance of the mine is exceedingly favorable. In the Juniata work is progressing in both upper and lower levels. There is a good ledge, but it is not rich enough to pay for milling. The Company will increase the number of miners on the 1st of October, and will begin work on two other mines. The Antelope continues its output of milling ore which is being profitably crushed at the Silver Hill mill.

THE WATER QUESTION.—The idea of saving the Spring flow of water by damming the outlets of the lakes in the Sierra Nevada mountains has been suggested before in the columns of the JOURNAL. W. B. Tiffany, who is thoroughly familiar with this mountain district and who has studied the topography of the country, says that nearly every lake in the mountains can be made a fine reservoir, and by doing so an abundant supply of water can be saved for the dry season. This is a project that must sooner or later be carried out and it is high time that some consideration was given to the matter. Mr. Tiffany also says that many small lakes could be used that would supply a large amount of water.

CANNOT ATTEND.—In response to an invitation to attend the Nevada Fair, General Traffic Manager J. C. Stubbs says:

Mr. C. C. Powning, President, Nevada State Agricultural Society, Reno, Nevada:

DEAR SIR:—I beg to own receipt of your invitation to attend the Annual State Fair to be held at Reno, Nevada, from Sept. 21st to Oct. 1st, 1897. It will be impossible for me to attend the Fair, but I assure you that your Society and State have the best wishes of Yours truly,
J. C. STUBBS.

GONE EAST.—Judge Murphy, of Carson, left yesterday morning for Woodstock, Illinois, via Chicago. His brother died there the other day of heart disease. Mrs. Murphy accompanied him to Reno, but was compelled to forego the trip East because of the illness of her daughter. Judge Murphy buried his son last winter, in Carson; now his brother dies suddenly, and to use his own language: "one misfortune always follows fast upon the other's heels." The Judge has the sympathy of a large circle of friends in this, the hour of his bereavement.

HOME AGAIN.—Mr. M. Nathan and old Tom Barnett arrived home on yesterday morning's train much pleased with their trip to San Francisco. They told a JOURNAL reporter that the funeral of Governor Bartlett was one of the most demonstrative affairs they ever witnessed in California. Both of these prominent merchants have purchased a large and very select stock of Fall and Winter goods, and say that nobody need be without gentlemen's furnishing goods provided they give them a call.

THE PALACE STORE.—Mr. William Thompson is one of the happiest men in Reno over the successful completion of his new building next to the Postoffice, where the Levy Brothers have opened the Palace Dry Goods store. The proprietors will make a grand display of their mammoth stock of goods about Wednesday next, and promise to make such an exhibit of ladies', girls' and children's, as well as gent's furnishing wear as was never seen in any inland town on the Pacific Coast.

THE ST. ELMO.—Messrs. Hill & Daugherty placed on each glass door opening to their pretty saloon on Virginia street yesterday, two sets of enameled letters bearing the name "St. Elmo." They are a novelty in Reno, but prove to be quite a contrast to the cherry colored surroundings of the game work.

A FIGHT TO THE DEATH.—The Sierra City Tribune tells of a fight which occurred on last Wednesday, week, at the head of Gold Valley, a few miles from Sierra City, in which three men were engaged, to-wit: Jack Brennan on one side, and Sam and Theodore Dobson on the other. Brennan owned a cabin and had a small grazing tract of land near it. The Dodsons had a band of sheep which they drove upon Brennan's pasture. Brennan ordered them off, and told Theodore Dobson that if he would lay down his gun he, Brennan, would thrash him. Both of the Dodsons were armed; Sam was on horseback and had a pistol. When Brennan made the remark Theodore, who was on foot and had a double-barreled shotgun, emptied one of the loads into the face and breast of Brennan, and then ran away. Sam also commenced shooting at Brennan, and emptied five chambers of his pistol, but none of his shots took effect. Brennan, badly wounded as he was, ran into his cabin, procured his partner's Winchester rifle, and commenced firing at the Dodsons. He made a corpse of Sam, but failed to bring down Theodore. At last accounts the prospects for Brennan's recovery were good. He is a brother of Postmaster Brennan, of Sierra City, and bore a good reputation, while the Dodsons were looked upon as rather tough characters.

FRIGHTFUL ACCIDENT.—The Elko Independent says Wednesday afternoon about 3 o'clock a frightful accident occurred at Tom Cahill's ranch, in Lamotte, resulting in serious injuries to Frank Dakin, who was assisting at the machine in thrashing Mr. Cahill's crop. While the machine was running Frank noticed that the jack which supports the tumbling shaft was loose, and in attempting to fix it, he stooped down to pick up a rod, when the shaft jumped from the jack, caught the clothes on his breast winding them around the rod and tearing them from his person. At the same time Frank was drawn down to the rod which caught his privates, lacerating them in a shocking manner before the rapidly revolving shaft could be stopped. By a great effort he succeeded in preventing himself from being revolved around the shaft and thus perhaps, avoided instant death. The sufferer was brought to town and placed under the care of Dr. Meigs, who does not hesitate to pronounce his injuries of a very serious character.

THE SPOKES COUNTY GRAIN CROP.—The Evening Report says R. S. Meacham, Lonkey's agent, has cut it. The returns are immense for the area. It is far ahead of any other county in the State, or on the Coast, so far as the average per square foot is concerned, the "acresage" is 30 square feet, and the crop is 250 pounds. Mr. Meacham reports that the greatest difficulty he has experienced in farming in Storey county, has been to find a place to stick his ranch. Everything else is eminently satisfactory, the returns being far above his most rosy expectations. Plans and specifications are respectfully invited to overcome the difficulty, named by Mr. Meacham, to successful farming in Storey, and State aid is invoked. Mr. Meacham has forwarded his report to the U. S. Commissioners of Agriculture, in order to relieve all anxiety that may be caused by future corners on wheat.

THE NEVADA BANK.—A summary shows as follows: Money borrowed on wheat and secured, \$1,857,000; owing to the Nevada Bank, \$6,550,000; losses on contracts, \$300,000; losses on cargoes en route, \$530,000; other losses, \$290,000, making a total indebtedness of more than \$7,500,000, which is practically unsecured, and which is supposed to approximately represent the loss in the great deal. Taken as a whole the exhibit is regarded as one of the most remarkable in the history of speculation in this country, and is accepted as a confession of the necessity of the changes which occurred four days ago in the Directory of the Nevada Bank.

A MINE TRANSFERRED.—A syndicate of New York and Philadelphia men, headed by Whitaker Wright of Philadelphia, have purchased the old Rocky Bar mine, near Grass Valley, and some ground adjoining on Massachusetts hill for \$70,000. A new shaft of two large compartments will be sunk at a point 500 feet east of the old Watt shaft and a pipe line will convey water from the South Yuba ditch. Operations will be commenced within thirty days.

HIS FIRST BUGGY RIDE.—Carvana Fina, a Spaniard, living near Grass Valley, noted all his life as a most skillful and daring rider, while enjoying his first buggy ride Wednesday, became alarmed at some unusual antics of his team, and in leaping from the buggy lost his footing, but still clinging to the lines was dragged over the ground until senseless, sustaining serious injuries. He may recover.

It is stated that a syndicate of San Francisco capitalists is negotiating with Captain Merrill, of Susanville, Cal., for his interests in the water-right appertaining to Eagle lake.

ROBBERY AT GARDNERVILLE.—On Wednesday night Victor Lundergren's saloon, at Gardnerville, was robbed of about \$200. A man named John Williams, who was confined in the county jail a short time ago on a charge of selling whisky to Indians, is thought to be the guilty party. Williams came into Genoa from Gardnerville the evening before the robbery, and secured a room at Rice's Hotel. Some time during the night he left the hotel taking Sam Rice's coat with him, after having stuffed his old one into the straw-tick on the bed, and it is thought he went back to Gardnerville and committed the robbery. Entrance to the saloon was obtained by breaking in the door. The money was locked up in the drawer, but the robber cut the bottom out with a chisel and carried away the sack. Williams was at Gardnerville for a number of days previous to the robbery and was perfectly familiar with the surroundings. This fact and his sudden departure from the hotel seem to point to him as the guilty party. The Sheriff left here Thursday morning with a warrant for the arrest of Williams, and came in about half past 11 o'clock Friday night with his man, having arrested him in Carson. Williams had but a small amount of money on his person, but was wearing the coat taken from the hotel. So says the Genoa Courier.

MORE PRIZES.—Messrs Manning & Jacques, wholesale hardware dealers, offer a beautiful silver goblet for the winner in the 1/2-mile bicycle race at the State Fair. On one side appears, "First prize, 1/2-mile bicycle race. Presented by Manning & Jacques." The Agricultural Society offers a silver medal with blank back for engraving the name of the winner. The reverse is a fine cut of the Goddess of Industry and Agriculture. This is to be given to the second in the race, while the third consists of a large, nickel-plated alarm bell, which will fall to the third man in the race. Mr. Herz offers a magnificent gold medal to the winner of the 1/2-mile race, and the Society offers to the second a nickel-plated bicycle lantern. These inducements must be seen to be appreciated. There will be a one-mile race for the champion-ship of the State, open to all parties within the State. The prize offered to the winner will be one of the Society's gold medals. All are on exhibition at Manning & Jacques', and also at Herz's jewelry store. The second prize in this race is a neat cyclometer by which a record of distance made by the rider is chronicled.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle feb. 21-saw f-1v

BEATS THE LOUISIANA LOTTERY.—For the next sixty days all those who purchase one dollar's worth of groceries at Havenor's Cash Store will receive a ticket in a drawing for a fine gold watch. This is certainly a liberal proposition and all groceries sold at this establishment are fresh and of the best quality, and are disposed of at the lowest retail price. All goods are warranted and if not as represented the purchase price will be refunded. Go and take your chances in the watch.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

ELECTRIC

We take pleasure in presenting herewith our new line of Oil Cooking Stoves, embracing all the popular and valuable features which have characterized our former products, and which have earned for them the **high reputation** which has been **maintained** under the name

The Electric Oil Ranges are a radical departure in the construction of oil cooking stoves, and for **efficiency, durability, economy, safety, quality of material and workmanship, elegance of design and finish, and perfection of operation**, they are **not equaled** by any oil or vapor stove ever produced.

Why not cease the endless trouble and annoyance of carrying wood and coal, with the litter of dust, dirt and ashes, when the price of one of our ranges is within the reach of all, and the cost of fuel is but one-half the expense of wood or coal?

Do you use **gasoline**? Have you ever been a victim to this **treacherous, perilous and deadly** fluid, which is almost daily **responsible** for the most **terrible losses of life and property**? Then you will thoroughly appreciate the perfect **security** it is possible for you to enjoy in the possession of an **Electric Oil Range**. They are guaranteed to be **absolutely safe, economical** in the consumption of oil, and **unequaled** in all kinds of **cooking, roasting and baking**. What more can be desired?

Electric Oil Range No. 120.

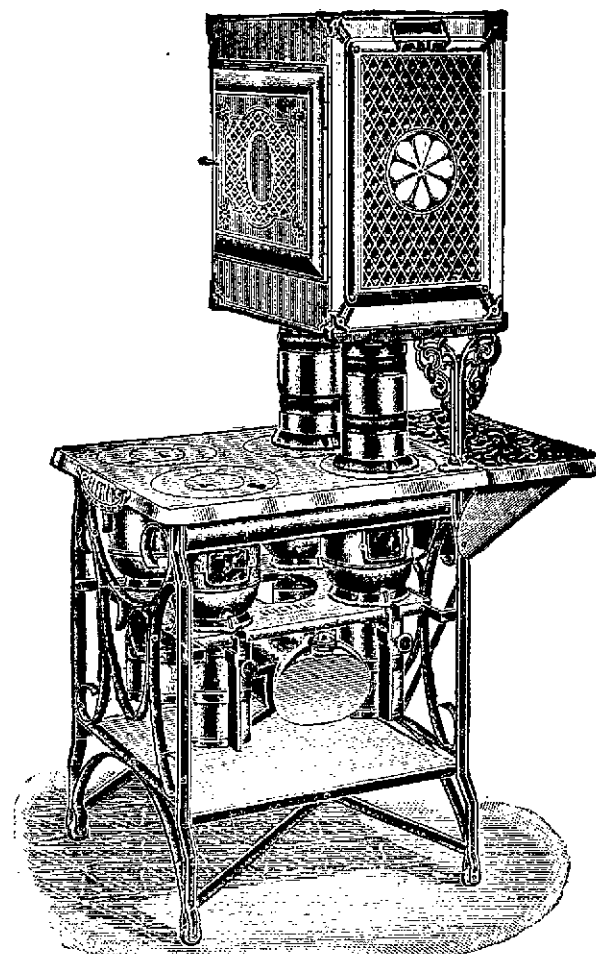

This stove has **four powerful central draft brass burners**, one under each griddle, using ten-inch circular wicks of double thickness. These burners, in their faultless construction, entirely **consume the gases of combustion** and give an **intense heat** which is concentrated directly upon the griddles and cooking utensils.

The oil reservoir is galvanized iron, black enameled, with ends of polished brass, elevated above and apart from the burners, keeping the oil always cool. It has a capacity of two gallons.

Steel frames, black enameled, striped and ornamented. Top edges nicely polished. Mounted on casters.

Height, 28 inches. Top, 22x23 inches. Extension shelf, 9x22 inches. Weight crated 100 pounds.

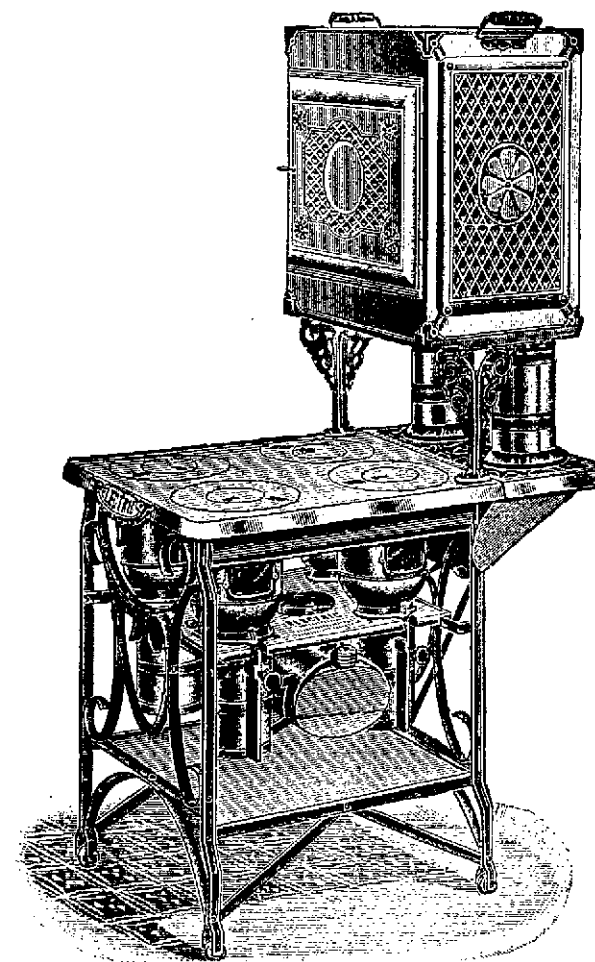

Price, No. 120, square top with extension shelf,	\$17.00
Price, No. 120, square top, less extension shelf,	10.00
Price, No. 4, Russia Oven,	4.00
Price, No. 4, Tin Oven,	3.00

Electric Cabinet Oil Range No. 121.

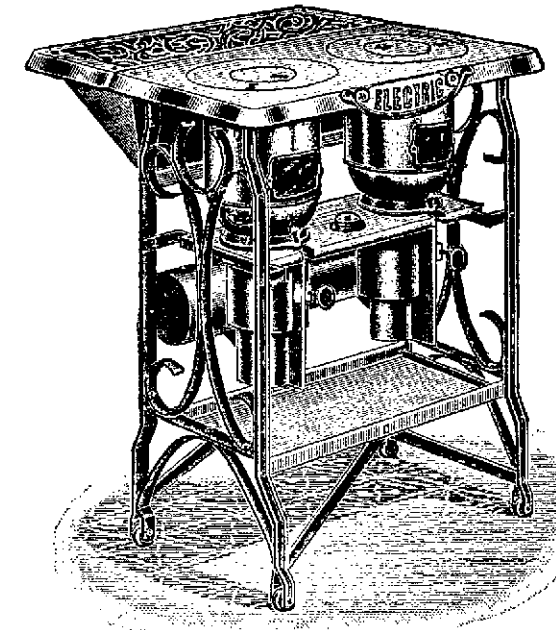

The most complete and thoroughly equipped Oil Cooking Stove ever placed on the market; equal to all the requirements of a large family, and can be used with the greatest economy by the smallest. In boiling, broiling, roasting and baking, this range accomplishes marvelous results. The oven is of extra large capacity, is lined throughout, and will fit any of our other ranges.

Price of No. 121 with elevated shelf and flues,	\$18.00
Price of No. 4, Russia Oven, 18½x12½x19 inches,	4.00
Price of No. 4, Tin Oven, 18½x12½x19 inches,	3.00

Electric Oil Range No. 121.

By reversing the elevated shelf, the oven and flues may be placed over the extension shelf, in which position it serves the purpose of a warming oven to perfection, and leaves the whole top of the stove available for general cooking purposes.

Electric Oil Range No. 40.

Constructed on exactly the same principles as the stoves described on the preceding pages. **Two ten inch central draft, round wick brass burners**. Two eight inch griddles with **removable center lids** for the convenience of heating cups, teapots and other small furniture. The **burners and oil tank** are supported upon a **sliding shelf** which can be drawn from the side of the stove for trimming the wicks, etc. Capacity of oil reservoir, one gallon. Steel frames, black enameled and ornamented. Mounted on casters. An indispensable acquisition to the furniture of every household.

Height, 28 inches. Top, 13 inches wide, 22 inches long. Extension shelf, 9 x 22 inches. Weight crated, 60 lbs.

Price of No. 40 with extension shelf,	\$12.00
Price of No. 4 without extension shelf,	11.00
Price of No. 4, Russia Oven,	4.00
Price of No. 4, Tin Oven,	3.00

ELECTRIC OIL STOVE OVENS.

These ovens are *especially adapted to our stoves*, and should always be used *in connection with them*, to insure the most complete and satisfactory results.

We cannot guarantee the successful operation of our Stoves where our customers persist in using a cheap, ramshackle affair of an oven.

These ovens are *perfectly ventilated*, so constructed that *no heat is lost by radiation*, and are positively *unequalled for all kinds of roasting and baking*. With the combustion under perfect control, which is secured by the superior arrangement of our stoves, a *steady, uniform heat* can be maintained, securing *quicker and better results than can be accomplished with either gasoline, wood or coal*.

WICKS.

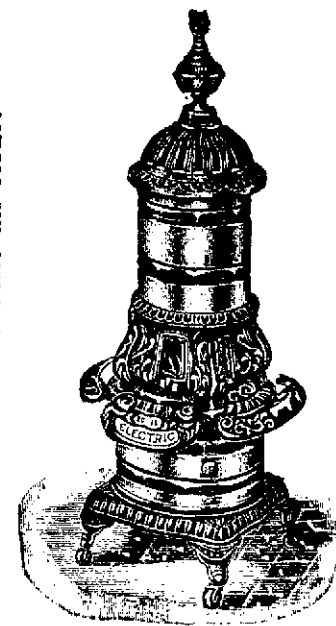

Our wicks are made of the very best material obtainable, are **soft, silky and pliable** in texture with a very **fine and intricate weave**, and possess **strong capillary power**, supplying the flame with sufficient oil to sustain a full blaze until the oil reservoir is entirely empty.

If you have suffered trouble and annoyance as a result of using unsuitable wicks in your stoves, try what we have to offer and be relieved of your difficulty.
